Re: Ten Year Transmission Plan, Docket No. E-00000D-05-0040

Dear Sir/Madam:

Attached please find an errata to SRP's Ten Year Transmission Plan filed on January 31, 2005 with the Arizona Corporation Commission. Specifically, this errata corrects the location coordinates for the Carrel Substation as found on page 9 of the transmission plan. The correct coordinates for the Carrel Substation are SEC 36, T1N, R8E.

We apologize for any confusion that may have resulted due to our error. Please do not hesitate to contact me if you have any questions.

Sincerely,

Kelly J. Barr

LINE DESIGNATION: Carrel 115/12kV Distribution Substation

SIZE:

- |     |                      |                                       |
|-----|----------------------|---------------------------------------|
| (a) | Voltage              | 115kV                                 |
| (b) | Capacity             | 28MVA                                 |
| (c) | Point of Origin      | Carrel Substation<br>SEC 36, T1N, R8E |
| (d) | Point of Termination | N/A                                   |
| (e) | Length               | Less than one mile                    |

ROUTING: From the existing Spurlock to Goldfield 115kV line to the proposed station site immediately adjacent to the transmission line corridor.

PURPOSE: Serve the increasing load in the Pinal County/Gold Canyon Ranch area.

DATE:

- |     |                                |      |
|-----|--------------------------------|------|
| (a) | Start ROW/Property Acquisition | 2003 |
| (b) | Construction to Start:         | 2006 |
| (c) | Estimated In-Service Date:     | 2006 |

NOTES:

SRP will prepare an application for a CEC for this project.
